#### Calavo Growers, Inc. Announces First Quarter 2023 Financial Results

SANTA PAULA, Calif., March 6, 2023—Calavo Growers, Inc. (Nasdaq-GS: CVGW), a global avocado-industry leader and provider of convenient, ready-to-eat fresh food, today reported its financial results for the fiscal first quarter ended January 31, 2023.

#### First Quarter Financial Overview

- · Total revenue of \$226.2 million, an 18% decline from prior year
  - o Grown segment revenue decreased 27% year-over-year to \$117.7 million
  - o Prepared segment revenue decreased 3% year-over-year to \$108.5 million
- · Gross profit of \$14.4 million, compared to \$13.2 million for the year-ago quarter
  - o Grown segment gross profit decreased \$2.2 million from prior year to \$9.5 million
  - o Prepared segment gross profit increased \$3.4 million from prior year to \$5.0 million
- · Net loss of \$(3.1) million, or \$(0.17) per diluted share, compared to net loss of \$(4.0) million, or \$(0.23) per diluted share, for the same period last year
- · Adjusted net loss of \$(1.4) million, or \$(0.08) per diluted share, compared to adjusted net loss of \$(0.4) million, or \$(0.02) per diluted share for the year-ago quarter
- · Adjusted EBITDA of \$3.6 million compared to \$4.7 million for the same period last year

Adjusted net income (loss), adjusted net income (loss) per diluted share, and adjusted EBITDA are non-GAAP financial measures. See "Non-GAAP Financial Measures" below.

#### First Quarter Highlights

- · Achieved year over year improvement in Prepared segment results despite weather challenges
- Implemented first phase of new transportation management system that enables RFPs on most outsourced freight; will be fully implemented in second quarter
- · Finalized latest initiatives to streamline operations and improve performance

#### **Management Commentary**

"Our first quarter results were impacted by challenging market conditions in both the Grown and Prepared segments. Grown segment performance was challenged by low avocado prices and margins, driven by increased volumes of Mexican avocados. Prepared segment performance was affected by volume softness and winter weather that led to higher operating costs including from temporary facility closures," said Brian W. Kocher, President and Chief Executive Officer of Calavo Growers, Inc.

Calavo Growers, Inc. Page 2 of 12

"Grown segment market conditions started to recover in late January, and we have realized avocado margins within our targeted range of \$3 to \$4 per case for most of the second quarter. Supply pressure, however, may lead to ongoing volatility in avocado margins. In addition, volume softness in Prepared may persist in the near term as data indicates volume sales have been down broadly across retail food categories. The operating environment, coupled with our first quarter results, has caused us to lower our fiscal year margin expectations for both segments. For 2023, we estimate adjusted EBITDA in the range of \$40 to \$45 million. While we're not setting the precedent of giving annual EBITDA guidance, we believe it is important to provide an indication of our expectations for this year given first quarter results. A reconciliation of estimated adjusted EBITDA for fiscal 2023 to the most directly comparable GAAP measure is not available at this time because of the uncertainty of various components that are excluded from adjusted EBITDA. These components may be material to the Company's results in accordance with GAAP for the full year 2023.

"Our top capital allocation priority is to invest to grow the business to generate long-term shareholder value. We also are committed to paying a dividend with competitive yield and payout metrics relative to benchmarks. However, the metrics associated with our current dividend rate have been elevated since fiscal 2020 and remain elevated under the current operating environment. We plan to reset the dividend to a level that provides more market competitive metrics. We anticipate the Board of Directors will declare a dividend of \$0.10 per share for the second quarter. Although we remain committed to growing the business, we also plan to reduce our fiscal 2023 capital expenditures while we navigate near-term challenges. We now expect capital expenditures for fiscal 2023 of approximately \$13 million. These adjustments reflect deliberate fiscal discipline that will allow us to continue prioritizing investment for growth while maintaining competitive dividend metrics.

"I want to emphasize that we have a strong balance sheet and sufficient liquidity to manage through these operational challenges while also funding capital projects and growth initiatives to strengthen future earnings."

#### First Quarter 2023 Consolidated Financial Review

Total revenue for the first quarter 2023 was \$226.2 million, compared to \$274.1 million for the first quarter 2022, a decline of 18%. Grown segment sales decreased 27% and Prepared segment sales decreased 3%. The average selling price of avocados in the Company's Grown segment decreased by 35% to approximately \$28 per case while volumes were up 3.4% versus the prior-year period.

Gross profit for the first quarter was \$14.4 million compared to \$13.2 million for the same period last year.

Selling, general and administrative (SG&A) expenses for the first quarter totaled \$16.4 million, compared to \$15.3 million for the same period last year. The increase primarily was due to higher costs associated with employee compensation, including stock-based compensation.

Net loss for the first quarter was \$(3.1) million, or \$(0.17) per share. This compares with a net loss of \$(4.0) million, or \$(0.23) per diluted share, for the same period last year.

Calavo Growers, Inc. Page 3 of 12

Adjusted net loss was \$(1.4) million, or \$(0.08) per diluted share, compared to adjusted net loss of \$(0.4) million, or \$(0.02) per diluted share last year.

Adjusted EBITDA was \$3.6 million compared to \$4.7 million for the same period last year.

#### **Balance Sheet and Liquidity**

The Company ended the quarter with \$24.0 million of total debt, which included \$16.4 million of borrowings under its line of credit and \$7.6 million of other long-term obligations and finance leases. Cash and cash equivalents totaled \$1.8 million and the Company had \$26 million of available liquidity as of January 31, 2022.

#### **Segment Performance**

#### Grown

Grown segment sales in the first quarter were \$117.7 million, down 27% from \$162.0 million for the same period last year. Avocado prices were 35% lower year-over-year, and avocado volume was 3.4% higher. Segment gross profit was \$9.5 million compared to \$11.7 million for the same period last year. Results were pressured by low avocado prices and compressed margins, particularly for small fruit, driven by high volumes of Mexican avocados. Prices at retail did not decline in proportion to the average wholesale case price decline, which may have dampened demand in the quarter. Performance was also negatively affected by the strengthening peso relative to the U.S. dollar, which increased operating costs in Mexico in dollar terms. Industry volume of avocados from Mexico was up over 8% over our fiscal first quarter.

#### Prepared

Prepared segment sales in the first quarter were \$108.5 million, down from \$112.1 million in the same period last year. Segment gross profit was \$5.0 million, increasing \$3.4 million from the same period last year. The Prepared segment generated a gross margin of 4.6%, which consisted of a gross margin of over 1% in the fresh-cut division and approximately 26% in the guacamole division. Results in the fresh-cut division were affected by seasonal slowness but also by isolated winter weather impacts and slower than anticipated consumer purchase rates. Winter storm events drove approximately \$1.0 million of unfavorable impacts in the quarter primarily due to manufacturing facility closures. Volume in Prepared was down 13% compared to the year ago quarter as retail customers experienced higher dollar sales year-over-year but lower volume movement.

#### Outlook

#### Grown Segment

Fiscal 2023 avocado gross margins per case are expected to be at or near the low end of our \$3 to \$4 target range. The outlook reflects first quarter results and the expectation that margins may remain under pressure as the California and Peru seasons get underway.

Calavo Growers, Inc. Page 4 of 12

#### Prepared Segment

Fiscal 2023 gross margins in the fresh cut division will be at or near the low end of the 10%-12% gross margin range exiting fiscal 2023 as volume softness is expected to persist in the near term. However, new customer distribution points and volume are still scheduled to launch in the second half. Gross margins in the guacamole division are expected to approximate 20% for fiscal 2023.

"Despite a challenging start to fiscal 2023, we remain focused on making changes to the business that will deliver ongoing value," Kocher said. "We recently finalized plans to restructure some of our operations."

The plans include the following:

- · Restructuring certain corporate and administrative functions to upgrade capabilities and to reduce costs,
- · Consolidating activities in our Grown distribution network to streamline operations and generate savings, and
- · Exiting the non-core salsa business to in our Prepared Segment.

These activities are expected to generate annual savings of at least \$1.5 million with one-time charges of approximately \$3.2 million that includes cash and non-cash costs associated with severance, asset impairments, and implementation expenses. The payback on cash costs is expected to be approximately 1.5 years or less.

#### **Non-GAAP Financial Measures**

This press release includes non-GAAP measures EBITDA, adjusted EBITDA, adjusted net income (loss) and adjusted net income (loss) per diluted share, which are not prepared in accordance with U.S. generally accepted accounting principles, or "GAAP."

EBITDA is defined as net income (loss) attributable to Calavo Growers, Inc. excluding (1) interest income and expense, (2) income tax (benefit) provision, (3) depreciation and amortization and (4) stock-based compensation expense. Adjusted EBITDA is EBITDA with further adjustments for (1) non-cash net losses (income) recognized from unconsolidated entities, (2) goodwill impairment, (3) write-off of long-lived assets, (4) acquisition-related costs, (5) restructuring-related costs, including certain severance costs, (6) certain litigation and other related costs, and (7) one-time items. Adjusted EBITDA is a primary metric by which management evaluates the operating performance of the business, on which certain operating expenditures and internal budgets are based. Additionally, the Company's senior management is compensated in part on the basis of Adjusted EBITDA. The adjustments to calculate EBITDA and adjusted EBITDA are items recognized and recorded under GAAP in particular periods but might be viewed as not necessarily coinciding with the underlying business operations for the periods in which they are so recognized and recorded.

Adjusted net income is defined as net income (loss) attributable to Calavo Growers, Inc. excluding (1) non-cash net losses recognized

from unconsolidated entities, (2) goodwill impairment, (3) write-off of long-lived assets, (4) acquisition-related costs, (5) restructuring-related costs, including certain severance costs, (6) certain litigation and other related costs, and (7) one-time items. Adjusted net income (loss) and the related measure of adjusted net income (loss) per diluted share exclude certain

Calavo Growers, Inc. Page 5 of 12

items that are recognized and recorded under GAAP in particular periods but might be viewed as not necessarily coinciding with the underlying business operations for the periods in which they are so recognized and recorded. We believe adjusted net income (loss) affords investors a different view of the overall financial performance of the Company than adjusted EBITDA and the GAAP measure of net income (loss) attributable to Calavo Growers, Inc.

Reconciliations of non-GAAP financial measures to the most directly comparable GAAP financial measures are provided in the financial tables below.

Items are considered one-time in nature if they are non-recurring, infrequent or unusual and have not occurred in the past two years or are not expected to recur in the next two years, in accordance with SEC rules. Non-GAAP information should be considered as supplemental in nature and not as a substitute for, or superior to, any measure of performance prepared in accordance with GAAP. None of these metrics are presented as measures of liquidity. The way the Company measures EBITDA and adjusted EBITDA may not be comparable to similarly titled measures presented by other companies and may not be identical to corresponding measures used in Company agreements.
