Safe Harbor Statement

This presentation contains statements relating to future events and results of Calavo (including certain projections and business trends) that are "forward-looking statements," as defined in the Private Securities Litigation Reform Act of 1995, that involve risks, uncertainties and assumptions. These statements are based on our current expectations and are not promises or guarantees. If any of the risks or uncertainties ever materialize or the assumptions prove incorrect, the results of Calavo may differ materially from those expressed or implied by such forward-looking statements and assumptions. The use of words such as "anticipates," "estimates," "expects," "projects," "intends," "plans" and "believes," among others, generally identify forward-looking statements.

Risks and uncertainties that may cause our actual results to be materially different from any future results expressed or implied by the forward-looking statements include, but are not limited to, the following: the ability of our new management team to work together successfully; the impact of operational and restructuring initiatives on our business, results of operations, and financial condition, including uncertainty as to whether the desired effects will be achieved and potential long-term adverse effects from reducing capital expenditures; the impact of weather on market prices and operational costs; seasonality of our business; sensitivity of our business to changes in market prices of avocados and other agricultural products and other raw materials including fuel, packaging and paper; potential disruptions to our supply chain; risks associated with potential future acquisitions, including integration; potential exposure to data breaches and other cyber-attacks on our systems or those of our suppliers or customers; dependence on large customers; dependence on key personnel and access to labor necessary for us to render services; susceptibility to wage inflation; potential for labor disputes; reliance on co-packers for a portion of our production needs; competitive pressures, including from foreign growers; risks of recalls and food-related injuries to our customers; changing consumer preferences; the impact of environmental regulations, including those related to climate change; risks associated with the environment and climate change, especially as they may affect our sources of supply; our ability to develop and transition new products and services and enhance existing products and services to meet customer needs; risks associated with doing business internationally (including possible restrictive U.S. and foreign governmental actions, such as restrictions on transfers of funds and restrictions as a result of COVID-19 and trade protection measures such as import/export/customs duties, tariffs and/or quotas and currency fluctuations); risks associated with receivables from, loans to and/or equity investments in unconsolidated entities; volatility in the value of our common stock; the impact of macroeconomic trends and events; and the resolution of pending investigations, legal claims and tax disputes, including an assessment imposed by the Mexican Tax Administrative Service (the "SAT") and our defenses against collection activities commenced by the SAT.

For a further discussion of these risks and uncertainties and other risks and uncertainties that we face, please see the risk factors described in our most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission and any subsequent updates that may be contained in our Quarterly Reports on Form 10-Q and other filings with the Securities and Exchange Commission. Forward-looking statements contained in this presentation are made only as of the date of this presentation and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.

Nearly 100 Years of Milestones

- 1924: The California Avocado Growers Exchange is founded as a grower-member owned cooperative.
- 1926: A national naming contest provides the birth of our "Calavo" brand that becomes synonymous with avocados.
- 1949: Expanded our product line to include Hawaiian papayas and market them under the Calavo Gold name.
- 1955: Broke ground on the Santa Paula packing-house we still use today as our primary packing facility in CA.
- 1965: Expanded our market opportunity as the first U.S. company to open an avocado packing-house in Mexico.
- 1998: Launched Calavo "Avocado Dip" (guacamole) as our first processed consumer product.
- 2002: Among the first in the industry to leverage new ripening and sorting technology.
- 2005: Began trading on the Nasdaq as the first publicly traded avocado marketer and distributor in the U.S.
- 2007: Tomatoes are added to our fresh product line. Partnerships with greenhouse facilities in Mexico provide year-round fresh produce.
- 2010: We refreshed our brand identity with new logo and tagline and have begun consolidating product lines under the Calavo brand.
- 2011: Calavo acquired Renaissance Food Group (Prepared-Fresh Cut), a pioneer in fresh-cut fruits and vegetables.
- 2022: Calavo acquired Renaissance Food Group (Prepared-Fresh Cut), a pioneer in fresh-cut fruits and vegetables.

Grown & Prepared Segments

Grown:

**Avocados**
We were founded as the original avocado company in North America. For nearly 100 years, Calavo brand avocados have been recognized and respected as the finest in the world.

**Tomatoes**
Our year-round supply of vine-ripened rounds & Romas are 100% greenhouse grown. Innovation with the highest food safety standards.

**Hawaiian Papayas**
The gold standard of papayas. 75% of all Hawaiian Papayas are imported & marketed by Calavo.

Grown Segment Value Proposition
Grown Highlights

- Robust packing/value-added network in U.S. and Mexico (4 packing houses and 4 value-added distribution centers) provide year-round supply
- Long-term relationships with avocado growers worldwide
- Established customer base of blue-chip grocery retailers, club-stores, foodservice operators, food distributors and wholesalers
- Strong supply chain and inventory control counter supply/demand dynamics and strengthen profit profile
- Well-positioned to scale business domestically and abroad

Q1 FY23 Highlights

- Net sales for the Grown products business decreased 27% primarily related to lower sales prices of avocados due to higher overall supply of avocados in the marketplace.
- Gross profit was pressured by low avocado prices and compressed margins, with declines in avocado gross profit offset partially by a pricing driven increase in tomato gross profit.
Key Trends Supporting Avocado Growth

**TASTY “SUPER FOOD”**

Avocados have the highest relative nutritional value per serving compared to other fruits. More consumers are becoming aware of avocado’s nutritional value, especially in emerging markets.

**HEALTH BENEFITS OF AVOCADOS**

- Heart health
- Digestive health
- Weight loss
- Diabetes
- Pre-natal health

1) Source: USDA nutrition database; all stats per 100g of raw fruit.
2) World Avocado Organization.

**VERSATILE CONSUMPTION METHODS**

Versatility of avocado consumption is evolving and growing, with expansion into broader food categories beyond guacamole and salads.

**SUSTAINABLE FRUIT**

No other food offers the same nutritional value per-liter of water used in growth and harvest.

Mexico, the biggest producer of avocados by volume, relies mostly on natural precipitation for avocado groves; second largest producer Peru is irrigated through Andes run-off.
**Significant Growth Opportunity Ahead**

**CALAVO IS WELL-POSITIONED TO MEET THE GROWING DEMAND FOR AVOCADOS DOMESTICALLY AND ABROAD**

**U.S. AVOCADO CONSUMPTION**

Gross Margin - Prepared

Gross Margin - Total
Q1 FY23 Financial Highlights

- Total revenue of $226.2 million, an 18% decline from prior year
  - Grown segment revenue decreased 27% year-over-year to $117.7 million
  - Prepared segment revenue decreased 3% year-over-year to $108.5 million

- Gross profit of $14.4 million compared to $13.2 million for the year-ago quarter
  - Grown gross profit decreased $2.2 million from prior year to $9.5 million
  - Prepared gross profit increased $3.4 million from prior year to $5.0 million

- Net loss of $(3.1) million, or $(0.17) per diluted share, compared to net loss of $(4.0) million, or $(0.23) per diluted share, for the same period last year

- Adjusted net loss of $(1.4) million, or $(0.08) per diluted share, compared to adjusted net loss of $(0.4) million, or $(0.02) per diluted share for the year-ago quarter

- Adjusted EBITDA of $3.6 million compared to $4.7 million for the same period last year

Adjusted net income (loss) and Adjusted EBITDA are non-GAAP financial measures. Reconciliations of non-GAAP financial measures to the most directly comparable GAAP financial measures are provided in our reports on file with the SEC.
Outlook

Our first quarter results were impacted by challenging market conditions in both the Grown and Prepared segments. Supply pressure may lead to ongoing volatility in avocado margins in our Grown segment. In addition, volume softness in Prepared may persist in the near term as data indicates volume sales have been down broadly across retail food categories. This operating environment, coupled with our first quarter results, has caused us to lower our fiscal year margin expectations for both segments.

- Fiscal 2023 avocado gross margins per case are expected to be at or near the low end of our $3 to $4 target range. The outlook reflects first quarter results and the expectation that margins may remain under pressure as the California and Peru seasons get underway.
- Fiscal 2023 gross margins in the fresh cut division will be at or near the low end of the 10%-12% gross margin range exiting fiscal 2023 as volume softness is expected to persist in the near term. New customer distribution points and volume are, however, still scheduled to launch in the second half. Gross margins in the guacamole division are expected to approximate 20% for fiscal 2023.
- Despite a challenging start to fiscal 2023, we remain focused on making changes to the business that will deliver ongoing value.
Commitment to ESG
Leading the Way

Calavo core values

**DRIVE**
*The desire to be better today*
We know remarkable things are achieved when we dedicate ourselves to simply being a little better today than we were yesterday.

**RESPECT**
*A place for everyone*
Our trust comes from accepting that the fastest way to individual success is through collective achievement, and to reach that we must value, understand, and learn from each other. Calavo is a better place for everyone when each of us does better.

**INNOVATION**
*The lasting power of our creativity*
For nearly a century we’ve adapted to change with creativity and new ideas that produce value for people. When we invest in the resilience of people, it makes change our opportunity to create the future.

**STEWARDSHIP**
*Equitable and sustainable fresh forever*
We cherish our legacy and responsibility as a force for good that protects nature, provides equal opportunity and growth for our people, and strives to give every family, no matter their circumstance, access to fresh, quality, healthy food for life.

**QUALITY**
*The standard every family deserves*
We believe it is a basic right for every family to have access to fresh quality food that builds a healthier life. This is our standard, upheld every day through consistency, urgency, and care. For us, quality is personal.
WE BELIEVE SUSTAINABLE PRACTICES SUPPORT LONG-TERM VALUE CREATION FOR ALL STAKEHOLDERS. CALAVO STRIVES TO BE GOOD CORPORATE CITIZENS PURSUING ENVIRONMENTAL RESPONSIBILITY, SOCIAL EQUITY, AND SOUND GOVERNANCE THROUGHOUT OUR BUSINESS AND SUPPLY CHAIN.
ESG Highlights & Accomplishments

**ENVIRONMENTAL**
- Engaged SustainaBase to complete inaugural carbon footprint study to develop data for analysis and goal-setting
- 10x20x30 Project: Calavo joined a group of the world’s largest food retailers and providers to eliminate food waste from the supply chain. As part of our involvement, Calavo has committed to a 50 percent reduction target within our own operations
- Joined Sustainable Packaging Coalition to take advantage of packaging stakeholder knowledge and stay up-to-date on packaging innovation
- Committed to 50% reduction of Scope 1, 2 and 3 emissions by 2030

**SOCIAL**
- Fair Trade Program: Provided $220,000 in healthcare services to workers, small growers, and their families
- Supplied food donations to local food banks in communities around all our Prepared-Fresh Cut facilities
- Provided assistance to production facility employees when natural disasters occurred
- Committed to identify opportunities for community partnerships at all Calavo locations by 2024

**GOVERNANCE**
- Formed the Sustainability and Corporate Responsibility Committee of the Board of Directors to assist the Board in fulfilling its responsibility for the oversight of relevant sustainability and corporate social responsibility policies, strategies and programs
- Sustainability Council brings together key Calavo leaders to drive sustainability and corporate responsibility initiatives
- Food safety auditing and certification: FDA, USDA, OSHA, GFSI (including BRC and SQF)

- Joined Hass Avocado Task Force on Sustainability to contribute to the industry’s sustainability commitment
- LED Lighting Fixtures: At the end of 2020, 68% (942,874 SF) of our total manufacturing space was converted to LED lighting. Remaining square footage will be converted over a three-year timeline
- Delivered 3,073 metric tons of seeds and avocado skins to an avocado oil producer instead of composting these by-products
- Committed to 100% reduction of Scope 1 and Scope 2 Emissions by 2027

- Worked with USEM Ciudad de Mexico to assess quality of life of our Mexican workers and their families against UN Sustainable Development Goals. This resulted in Calavo’s first financial and personnel support for infrastructure and sanitation improvements in the communities where our workers live.
- Committed to invest in multi-year partnerships with community organizations nearby Calavo locations for an aggregate amount of $1.5 million by 2025

- Enhanced diversity on the Board of Directors with Farha Aslam and Adriana Mendizabal joining in 2021, and reduced the size of the board from 13 to 10 with plans to further reduce the size of the board to nine members over time
- Strong corporate governance supports commitment to conducting business honestly and ethically around the world
- Integrate ESG into Calavo’s enterprise risk management systems by 2025
